

Technology kit Aqualift F Compact Mono Resistant

Article information

Item no.: 28701C-TK GTIN: 4026092106877

Price group: 20

Description

For combination with a KESSEL shell kit for creating a Mono lifting station for wastewater without sewage with an SPZ1000 wastewater pump. The ready to plug in lifting station for wastewater without sewage is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank. Onehanded closures enable easy removal of the integrated components. The system for installation in the floor slab is pre-assembled for final installation on site. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system using a potential-free contact or alarm and collective fault messages that can be output through a GSM interface. KESSEL technology kit consisting of:

- Pump with macerator and multi-vane vortex impeller for maximum operating safety - Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems - Comfort control unit 230 V - Optical alarm probe - Pneumatic level measurement

Variant

Type of system:

Resistant:

Rim width:

Dimensions Net weight:

Gross weight: Packaging dimension: Packaging dimension: Packaging dimension: Single unit

Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems

Control unit

13,5 kg 13,5 kg length width height

Pumping device

Pump control: SPZ 1000 resistant

Number of pumps:

10 kg Weight: Connection type: coded plug Rated current: 5,2 A Length of mains cable for pump: 5 m Self-diagnosis system (SDS):

F Insulation class: Cos phi - power factor: 0,97

Protection class control unit: IP 68 (3m/48h) DSC: integrated 40°C

Max. temperature (permanent) of conveyed

material:

80°C Hot water resistance for a short time (2 min): 11,5 m³/h Max. pumping capacity: Max. pumping height: 10 m

Speed: 2800 U/min Power P1: 1.2 kW Power P2: 0.69 kW Operating mode: S3 - 50 %

Type of fuse required (electrical protection): Fuse protection through control unit 230 V

Type of pump connection cable: H07RN-F 3G 1.5 mm²

Macerator Impeller type:

Control

Control unit: Comfort

Control unit function: With alarm message

Motor protection switch: yes

Alarm sensor: optical probe Level measurement instrument: Immersion pipe Type of level measurement: pneumatic Protection class probe: IP 54 Mains frequency: 50 Hz Operating voltage: 230 V Connection type: coded plug Length of mains cable for control unit: 1,4 m

Potential-free contact: optional GSM interface: yes USB interface: yes Log book function: yes Multi-line display: yes Battery buffering: yes Self-diagnosis system (SDS):

Warning equipment version: acoustic and optical signal

Rated current: 5,2 A
